FOR NEW MAIL BIDDERS

If you have never before bid by mail, an explanation is needed. Basically, the procedure is quite simple. You will notice on the enclosed Mail Bid Form a place for entering the Lot Number as well as the amount you wish to bid. After carefully reading the description of the Lot in question, simply write down the Lot Number and the maximum amount you are willing to pay in the appropriate columns. For example, let's assume you are interested in bidding on Lot No. 145. Determine the maximum price you will pay for this Lot and enter this amount on the Mail Bid Form as follows:

Lot	Bid		Lot	Bid	
145	90	00			

You will note we have used the term "maximum amount" above. The bid which you enter is the "maximum amount" or top price you will pay for a lot (unless you have checked one of the increase boxes). However, there is always the chance you may obtain the Lot for less! As indicated in our "Terms and Conditions Governing Sale," we act as your agent and execute your bids as if you were there in person at the Sale. We will buy the Lot for you as cheaply as possible over the next highest bid. In other words, if your bid, for example, is $90.00 on Lot No. 145, and the next highest bid, whether by mail or floor, is only $70.00, the Lot would be awarded to you at $75.00, or a nominal 5% to 10% increase over the next highest bid.

Before entering your bids, please read carefully our "TERMS AND CONDITIONS GOVERNING SALE." Bidding by mail permits the individual to participate in the auction sale just as though he were able to attend the Sale in person. Many rarities are obtained through the medium of auction sales, and it can be a very exciting as well as a rewarding method of obtaining wonderful items for your collection. We look forward to your participation in our Sales.

Thank you,

The Auction Department

END OF SALE

The Miguel Munoz Collection

Rare coins can be owned and admired by a single collector . . . . or can be shared with the world through exhibits, lectures and research. Those numismatists that enrich the hobby by sharing their enthusiasm and knowledge are truly what coin collecting is all about.

Miguel L. Munoz is just such a person. Munoz was born almost 70 years ago in San Julian Jalisco, Mexico. His lifetime of devotion to the coins of Mexico can be traced back to 40 centa--vo coins that a young Munoz received in change for candy purchased from an old woman. The little boy noticed that on one coin the eagle was skinny; on another, the national bird of Mexico was fat. He then examined all of the different dates on the 40 coins Fate had decreed he receive. Thus, a coin collector was born. To this day . . . over half a century later . . the distinguished hobbyist and scholar, Miguel Munoz, still has some of those original centavos in a very special place.

Miguel Munoz has contributed generously to the knowledge of others through frequent lectures, articles and books which have become "standards" in his field of specialization. He has been the featured speaker at several ANA conventions (Houston, Washington), the New York Metropolitan Show (twice), several times at the Azteca in Los Angeles, as well as at Long Beach, Dallas, Hamilton and Calgary, Canada, and has presented a paper at the First Centennial of the Societe Numismatique Francaise in Paris.

Even a brief listing of his numismatic activities is truly impressive. Memberships include: the American Numismatic Association, Fellow of the American Numismatic Society, former President (1959-1966) of the Sociedad Numismatica de Mexico, Founder and Present Director of the Academia Mexicana de Estudios Numismaticos, Fellow of the Royal Numismatic Society (London), plus TAMS, OIN, Azteca and many others.

Miguel Munoz is also certainly one of the most active authors in the distinguished Numismatic Literary Guild, with over 50 articles to his credit. He has won the Heath Literary Award, presented annually by the ANA, an amazing five times.

Miguel Munoz, the "Dean of Mexican Numismaticists", has prepared "The First Mint of Mexican Insurgents" (1968, Sociedad Numismatica de Mexico). "Historia Numismatica del Estado de Mexico" (1975 Government of the State of Mexico), "El Real de Ocho, Primera Moneda Universal" (Formento Cultural Banamex) and "Tlacos y Pilones la Monedo de Pueblo de Mexico" (Formento Cultural Banamex), reflects 12 years of research. His most recently published work is "Anthology of Mexican Numismatics" published bilingually in Spanish and English.

It is expected that the sharing of Miguel Munoz's in depth collection with the numismatic fraternity will see the coins of America's southern neighbor rise to new levels of popularity. This can be credited to Miguel Munoz's systematic approach to both collecting and research . . . . . his legacy to all future generations of numismatists.

Many of the known 1855-D's have been used as jewelry and are either holed or have a loop removed. One of the rarest of all gold dollars with approximately 20 known to exist. 1629 1857-D. Very Fine 30 with considerable mint lustre for the grade. Some marks on the neck and a few old scratches on the reverse, none of which are too serious. One of the rarest and most underrated Type 3 gold dollars. PHOTO . . . . ($450.00-$650.00)

1630 1859-C. Very Fine 30. Struck on a very poor quality planchet which is consistent for this rare issue. Some mint lustre although weakly struck on the reverse. Ex. Gilhousen specimen. . . . . ($350.00-$450.00)

CHOICE PROOF 1860 DOLLAR

1631 1860. Brilliant Proof 60 to 65. Among the best of the 154 specimens struck. PHOTO. . . . . ($1250.00-$1500.00)

1632 1860. Mint State 60 Plus. A choice example and scarcer than its mintage might suggest. PHOTO. . . . . ($350.00-$450.00)

QUARTER EAGLES ($2.50 GOLD PIECES)

Capped Bust to Right, No Stars on Obverse - 1796 Only

EXTREMELY RARE 1796 NO STARS QUARTER EAGLE

1638 1796. Extremely Fine 40. The "E" of LIBERTY is weak as is the edge reeding above it because of planchet adjustment marks. Popular first year of issue and the only year of this type. A very desirable specimen and the most sought-after U.S. gold type coin. Probably less than 25 known. Ex Gibson Sale. PHOTO . . . . ($16,000.00-$20,000.00)

Stars on Obverse 1796-1807

1639 1802, 2 over 1. Mint State 60. A lustrous coin with brilliant proof-like surfaces. There is a typical weakness in the strike, evident on the hair above the ear and on the eagle's breast and head. Some light handling marks in the fields, none of which are very serious. A splendid specimen and certainly among the finest known. PHOTO. . . . . ($10,000.00-$12,000.00)

1640 1804, 14 Star Reverse. Mint State 60. A fully Brilliant Uncirculated specimen with proof-like surfaces. Boldly struck in deep yellow gold; however, some light adjustment marks around the obverse border and corresponding weakness of strike on the wing tip. Probably the third finest known. PHOTO....................................($10,000.00-$12,000.00)

1641 1804, 14 Star Reverse. Very Fine 30 with considerable mint lustre still evident. Light adjustment marks as made on the left obverse stars. Quite attractive with lovely yellow-orange toning and superior to the Gilhousen specimen. Less than 75 known. Ex Rev. Edward W.W. Lewis, March 18, 1949; Dr. Charles Ruby Part 2, lot #1708. PHOTO ....($3500.00-$4500.00)

1642 1807. About Uncirculated 50. Boldly struck and lustrous with lovely natural orange toning. Light wear on only the high points and free from the adjustment marks that seem to plague so many of these early quarter eagles. PHOTO ....($6000.00-$7500.00)

Capped Bust to Left, large size - 1808 Only

VERY RARE 1808 QUARTER EAGLE

1643 1808. Extremely Fine 40. The center portions are boldly struck up with the outside borders weaker, as is usual for this rare issue. A few minor edge nicks on top are the only defects worthy of mention. Far superior to the Gilhousen, Ex Rio Rancho collection example. A popular one year type coin and lacking from most collections. Only 2,710 pieces coined and less than 30 specimens known. Ex Dr. Charles Ruby Part 3, lot #984. PHOTO .....($15,000.00-$18,000.00)

Capped Head to Left 1821-1834

1644 1821. Brilliant Proof 60. Well struck with full proof-like fields. A small planchet depression on the cheek, the result of some foreign matter adhering to the die before striking. Other known specimens also have similiar depressions on the cheek. This coin has a nice rich gold color with slight traces of orange toning. In Walter Breen's book, "Encyclopedia of the United States and Colonial Proof Coins 1722-1977" he lists the other known pieces as follows: "Only the one variety. (1) Smithsonian, from the Mint Collection. (2) Eliasberg, ex Parmelee: 931, Woodin: 939, "Memorable": 86. (3) Mills: 337, choice, not later traced. (4) D.S. Wilson: 165 (1907), small curved planchet defect on jaw, convex to upper left. (5) Gable: 368 (1914), small obverse scratch. (6) Dr. Clifford Smith: 1495. Possibly same as one of the above. Occasion: probably the resumption of coinage with a new design. Cf. Gaylord: 100, Bell I."

We note that the piece we are offering is the D.S. Wilson specimen sold in 1907. It is most difficult to estimate a value for such a great rarity, however we can use some comparisons. Stack's sold an Uncirculated coin in their November 1974 auction for $23,000.00. A proof of 1821 has not appeared on the market since the Smith Sale in 1955. We believe the present offering is the finest known proof. Certainly worthy of the finest collection and a must for the date and type collector. PHOTO................................($25,000.00-$50,000.00)

1645 1824, 4 over 1. Very Fine 30 with considerable mint lustre for the grade. Only 2,600 pieces minted and most found their way into the melting pot. Considered a Rarity 5; however, this cataloguer feels that this coin is at least a Rarity 6. Less than 30 known specimens. From our Dr. Ruby Part 3 sale, lot #985 and realized $6400.00. PHOTO ....($6000.00-$8000.00)

1646 1825. About Uncirculated 50 to 55. Quite attractive with considerable proof-like mint lustre. A sharp, boldly struck coin with a few minute nicks on the cheek and some minor handling marks in the fields. A popular type coin and very much in demand. PHOTO ($8500.00-$9500.00)

1647 1826. Mint State 60. Boldly struck with blazing proof-like surfaces. Probably a specimen striking as this coin displays mirror surfaces with the typical linear striations as seen on early U.S. mint proofs. Quite possibly, this is one of the two or three proofs as quoted in Walter Breen's Encyclopedia on United States Proof Coins. Nevertheless, this is a superb example and a candidate for "Finest Known." A mere 760 specimens were coined and only a fraction are still existent. Very rare as this date is one of the lowest mintage coins in the entire Quarter Eagle series. The stage is set for a new record price. PHOTO . . . . ($17,500.00 – UP)

1648 1829. About Mint State 60. A needle sharp strike with brilliant proof-like surfaces. Some minor contact marks on the chin and edge below the date. A splendid example and the first year of the reduced size type. PHOTO . . . . ($7000.00-$9000.00)

1649 1831. Mint State 60. Boldly struck with proof-like surfaces and a hint of pale orange toning. Some light contact marks in the fields and on the rims, nevertheless a superb example and worthy of the finest collection. PHOTO . . . . ($6000.00-$7000.00)

1650 1833. Extremely Fine 45. Boldly struck with considerable mint lustre still intact. Except for the 1834 (Motto), this is the rarest date of this type. Seldom offered for sale and a type that is in great demand. PHOTO . . . . ($4000.00-$5000.00)

Classic Head Type 1834-1839

1651 1834 No motto. About Uncirculated 50 to 55. A beautiful, well struck example displaying considerable proof-like mint lustre. Some damage, possibly during striking, at IT in United, and a scratch in the field before the mouth. Overall, an attractive high grade example of the popular Classic Head design. PHOTO . . . . ($700.00-$900.00)

1652 1836. Fine 15 with some rim knocks . . . . ($125.00-$150.00)

1653 1837. About Uncirculated 50 to 55. A lovely specimen displaying full frosty mint lustre. Some very light handling marks in the fields which are hardly noticeable. Very scarce in any condition, especially this nice. PHOTO . . . . ($750.00-$1000.00)

1654 1838. Mint State 60 to 65. A splendid frosty coin exhibiting full mint bloom. The reverse edge has a few tiny nicks, nevertheless, this is probably the Finest Known. A very rare date in high grade and an accepted one-year type coin as this style head and stars appears only on this date. Could realize a run-away price. PHOTO . . . . ($2500.00 – UP)

1655 1838. Extremely Fine 40 and lustrous, however signs of solder removed on the edges. . . . . ($200.00-$300.00)

1656 1839 over 8. Very Fine 35. This is one of the most underrated quarter eagles of this type and is seldom encountered in high grade. PHOTO . . . . ($250.00-$350.00)

1657 1839-C. Extremely Fine 40 to 45. Well struck and lustrous. Very scarce in such high grade and worth in excess of the Guidebook listing. PHOTO . . . . ($700.00-$800.00)

1658 1839-O. About Uncirculated 50. Boldly struck and lustrous. Free from defects. Normal light friction for the grade and a beautiful high grade example of this date and mint. PHOTO. ....($1000.00-$1400.00)

Coronet Type 1840-1907

1659 1840-C. Very Fine 30. Well struck and free from defects. Very scarce low mintage date. PHOTO. ....($350.00-$450.00)

1660 1841-C. Extremely Fine 40 to 45. Unusually boldly struck as this scarce date is always seen weakly struck, especially on Liberty's head. Certainly equal to the Dr. Ruby specimen we sold in February 1975 (lot #992) which realized $650.00. Only 10,281 minted. PHOTO. ....($500.00-$650.00)

1661 1842-C. Extremely Fine 40 to 45. Well struck with some mint lustre remaining. Very scarce and seldom seen better. Probably among the 10 finest known. PHOTO..........($350.00-$500.00)

1662 1843. Extremely Fine 45. Boldly struck and destined to be "dipped" and graded a few points higher. A rather common date but seldom seen in choice condition. PHOTO . .($200.00-$250.00)

1663 1845. About Uncirculated 50. Well struck with beautiful mint lustre. While not considered a rare date, this coin is quite scarce this nice. PHOTO.........................($350.00-$450.00)

1664 1845-O. Very Fine 30. Well struck with the ususal light handling marks and wear commensurate for this grade. Probably no more than 6 specimens exist better than Very Fine. Without question the rarest New Orleans quarter eagle. Only 4,000 struck. PHOTO...........($600.00-$800.00)

1665 1846-D. Mint mark close to claw. Extremely Fine 45. Boldly struck and lustorus. A high grade of this date and seldom offered better. PHOTO ....($500.00-$750.00)

1666 1846-D. Mint mark distant from claw. About Uncirculated 50. Well struck with considerable mint lustre still intact. Among the top 10 or so known. Equal to the Rio Ranchospecimensold in October 1974 (lot #82) which realized $750.00. PHOTO................($750.00-$1000.00)

1667 1846-O. Mint State 60. Well struck for this normally weakly struck issue. The only softness is an area on the eagle's leg. A beautiful example with frosty mint lustre. A few scattered bag marks with some minor handling marks. Among the finest 6 known. PHOTO.....($1000.00-$1400.00)

1668 1847. Extremely Fine 45 Plus. Well struck with beautiful natural orange overtones. A very scarce and underrated date and seldom seen better than Very Fine. Probably among the best two dozen known. PHOTO ....($300.00-$400.00)

1669 1847-C. Extremely Fine 40. Some mint lustre still adhering to the devices with light orange overtones. Popular Charlotte Mint coin. PHOTO.........................($400.00-$600.00)

1670 1847-D. Extremely Fine 40. Boldly struck with traces of mint lustre still adhering. Very rare date...($450.00-$650.00)

VERY RARE 1848 "CAL" QUARTER EAGLE

1671 1848 CAL. above eagle. Extremely Fine 45. A beautiful boldly struck specimen displaying traces of mint lustre about the devices and pale red toning around the borders. In 1848, about 230 ounces of gold were sent to Secretary of War Marcy by Col. R.B. Mason, Military Governor of California. The gold was turned over to the mint and made into quarter eagles. The distinguishing mark "CAL" was punched above the eagle on the reverse side, while the coins were in the die. One of the great rarities of the quarter eagle series and always in high demand. Should surpass the five figure estimate. PHOTO . . . .($10,000.00 – UP)

1672 1848-D. Very Fine 30. One long scratch before the face and various nicks and marks in the fields and on the rims. Overall, a pleasing appearance and quite scarce . . . .($250.00-$350.00)

1673 1849-C. Extremely Fine 45. Considerable mint lustre still adhering and boldly struck. One nick on the edge at 1:00 is worthy of mention. Scarce low mintage date. PHOTO. . . . .($400.00-$600.00)

THREE - DOLLAR GOLD PIECES

1688 1854. Brilliant Proof 60 Plus. A beautiful coin with rich gold toning on both sides. We quote from Walter Breen's book for pedigree information: "First design, small DOLLARS this year only. (15+) *B-1. Heavy letters, ES on same base arc line, some other detail differ from later dies. Fifteen "specimens" sent by Mint Director Snowden to the Secretary of Treasury, April 28, 1854, per #136, letters, Mint & Branches, 1854, R.G. 104, Treasury Section, National Archives. (1) Smithsonian, ex Mint. (2) Jenks: 5782, Clapp, Eliasberg. (3) Mint, Rev. Richmond, Merkin 3/68:400 at only $1600. (4) Geiss: 1582, impaired. Two were in the J.B. Longacre estate, 1870. It is probable that a few others were made at the beginning of the new coinage of this denomination, May 1, 1854. (First delivery of regular coins, 23,140 on May 8). Others almost certainly survive. Cf. McCoy: 1986 to French; Cleneay; 688; Bell I: 265; Kern: 184, impaired; Rovensky: 1733, imp."

This piece is probably the second finest known. The finest known specimen, ex World's Greatest Collection is now in the Harry Bass collection. There are ten known specimens including the impounded Smithsonian, John Hopkins and Eliasberg pieces. This coin is an important first year type, appearing in the only year where the small letters type was used. It has been over ten years since this date, in proof condition, has there been offered for public auction. This is truly a numismatic treasure that will prove to be a worthwhile investment. 1689 1854. Brilliant Proof 50 to 55. A mishandled proof specimen displaying bright mirror surfaces with light contact marks in the fields. First year of issue and a distinctly different type from subsequent years because the word DOLLARS is much smaller than on the preceeding issues. Extremely rare as only about 15 proof specimens were coined according to Walter Breen's latest work. David Akers, United States Gold Coins, An Analysis of Auction Records, feels that the number of known proofs is 5 or 6 and none of which are particularly choice, including the specimen in the Garrett Collection at the John Hopkins University. A great rarity that should easily surpass our conservative estimate. PHOTO .... ($3000.00 – UP)

EXCEEDINGLY RARE 1843 PROOF $10.00

1961 1843. Brilliant Proof 60 to 65. A choice proof specimen with frosted devices set against a brilliant background, giving this coin a gorgeous cameo effect. A few scattered hairlines and lint marks, many of which were present on the planchet during striking. One of only 4 or 5 known specimens. This was the Virgil Brand specimen, sold by Kreisberg and Schulman in their March 1965 sale. The coin was described as follows: "1843 A glittering gem proof. The Brand specimen. No auction records in past decade. Possibly unique . . . If not, surely there can only be 2 or 3 in existence. Valued at ($5000.00)". Walter Breen's "Encyclopedia of United States and Colonial Proof Coins 1722-1977" traces the 1843 proof Eagle as follows: " (1) Cased set ex Neil: 2292 (2) WGC: 648 to Amon Carter to Amon Carter Jr. (3) J.F. Bell, "Memorable": 546. This or preceding ex Wooding: 1207 ("almost unique"), Newcomer. (4) Ronnie Carr, gem, apparently ex Brand, KS 3/65: 157. (5) Smithsonian, from Mint proof set. One of these is from Hebbeard: 378 (H.P. Smith 4/25-6/1883)." No meaningful record of this coin has appeared on the American market since this coin was last sold over thirteen years ago. A wonderful opportunity to acquire a numismatic treasure that undoubtedly will prove a wise acquisition to its new owner. PHOTO . . . . ($30,000.00 – UP)
